

Scholarship Policy

EBSA offers scholarships to eligible players and their families. It is our policy that no player should miss the season for lack of financial resources. We offer full scholarships as well as a sliding fee schedule that is based on household income level. For additional information please do not hesitate to contact EBSA.

Full Scholarships are available for all families that participate in the free and reduced lunch programs for school districts 65 and 202. Additionally, all households that currently receive unemployment insurance through the Illinois Department of Employment Security are also available for scholarship. We request that participants pay a minimum of \$25 per player, if they are able, and be available to volunteer.

We also offer reduced fee schedules based on income level based on the number of children in a household.
